## Introduction

**“MyGovExam”** This website is for those students who are preparing for competitive examination developed by **Bhardwaj Educational Services Private Limited (BESPL), Registered under the Companies Act 1956, Ministry of Corporate Affairs, Govt. of India & Managed by Sarkari Pariskha.** BESPL is an ISO 9001:2015 Certified Company to promote IT awareness and to provide IT education through franchisees centres.

Education is more than a foundation for learning. Rather, we believe that **expanding one's goals and exceeding one's potential are at the core of personal growth.** The system of education is changing at a rapid pace. Few decades back, it was quite simple to gain admission to any course you desired in a college of your choice. It is no more the case. There are hundreds or thousands of students waiting in line for admission in any top ranked institutes. There are various competitive exams to be mastered if you want to enter into a good institute or into attractive and coveted Government jobs.

We aim to provide clear instructions and details on all Competitive exams and Bank related exams. Here you can find all details of competitive exams and other necessary information a candidate should possess. This is a comprehensive resource on all competitive exams.

The training materials and the sample tests are designed considering the syllabus and toughness of the exam. As the education system is undergoing drastic changes, there are policy changes occurring on the entrance tests and the eligibility criteria too. It is often confusing when there is any change on policy. Without a clear guidance, students and candidates are often left in a lurch.

The practice materials that are provided here will help you in preparing for the exam and to acquire and master the required skills. Practice is a factor which often differentiates the topper from the rest of the candidates. We offer you a variety of sample tests so that you can be prepared for your exams. **You can sign up with us for fixed charges. There are absolutely no hidden charges or fees involved after signing up.** So, sign up and start your exam preparations today. We wish you happy practice times!!!
